

Installation Instruction for macOS

Follow these steps to install and start using Netpeak Spider on your macOS device:

01 Download Netpeak Spider

- Find the "Netpeak Spider" button and click on it
- The download will begin automatically

02 Install Netpeak Spider

- Locate the downloaded file, typically in your "Downloads" folder
- Double-click on the installer (it has a .pkg extension)
- Follow the on-screen instructions to complete the installation

03 Launch Netpeak Spider

- Once the installation is complete, you can find Netpeak Spider in your Applications folder
- Double-click on the Netpeak Spider icon to launch the application

04 Log In

- Use the email and password associated with your Netpeak Software account to log in
